Scrum starts with a Product Owner. This is the person who represents the final user's best interest, and has the authority to say what goes into the final product. That Product Owner is in charge of making the Backlog, a list of tasks and requirements the final product needs. Here's an important part: The backlog MUST be prioritized.

Scrum involves a cross-functional team creating a list to work on. The team consists of three roles, the Product Owner, the Team and the Scrum Master, who each have specific tasks. The team then works through three phases - a pre-sprint planning, the sprint and then a post-sprint meeting. The group has daily meetings and keeps a Product Backlog.
